The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/590,489	<b>Applicant(s)</b> KUWAHARA ET AL.	
	<b>Examiner</b> YUZHEN GE	<b>Art Unit</b> 2624	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**.                      2b) ☐ This action is non-final.

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-14 and 18-20, drawn to an invention that is related to setting a target degree of color and performing color processing based on the target.

Group II, claims 15-17 and 21-23, drawn to an invention that is an invention for performing image processing on a predetermined region and the predetermined region is a region that is specified by comparing gradation properties of the image signal and the processed signal.

These two groups are not so linked as to form a single general inventive concept under PCT Rule 13.1 because the first group is dealing with color signals of an image and the second group deals with gradation signal of a predetermined region of an image.

2. If group I is selected, further election of species is required because this application contains claims directed to more than one species of the generic invention in Group I. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Art Unit: 2624

- I. Species corresponding to Fig. 1, an embodiment of adjusting colors.
- II. Species corresponding to Fig. 8, a distinct embodiment of adjusting colors.
- III. Species corresponding to Fig. 9, another distinct embodiment of adjusting colors.
- IV. Species corresponding to Fig. 10, yet another distinct embodiment of adjusting colors.
- V. Species corresponding to Fig. 11, yet another distinct embodiment of adjusting colors.
- VI. Species corresponding to Fig. 12, yet another distinct embodiment of adjusting colors.

The following claims in Group I are generic: 1 and 18-20.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: different species have different structures/components or different designs.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit: 2624

the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
